

KWIK-SPIN®

NEW

Hand Spinner With AUTOFEED® Trigger

The new and improved KWIK-SPIN® is an excellent choice for clearing blockages from small drain lines in showers, sinks, and tubs. The patented AUTOFEED® trigger automatically feeds and retracts the cable as the drum turns.

The AUTOFEED trigger makes the job quick and simple:

- **Clean Hands Operation** – Avoid mess and minimize job-site cleanup.
- **Easily Feeds Cable** – Trigger lock allows smooth, nonstop operation so you can get on to the next job.

KWIK-SPIN features:

- Trigger lock button eliminates hand fatigue.
- 25' of high-strength, kink-resistant 1/4" MAXCORE® cable.
- Comfortable, reinforced hand grip.
- Lightweight, polyethylene drum will not dent or rust.
